5CCT T5N INTEGRATED T5 LED LAMP

NEW T5N 5CCT Integrated T5 LED Lamp

In Stock & Ready to Ship

Aleddra's 5CCT Integrated T5 LED Lamp offers five selectable color temperatures—2700K, 3000K, 3500K, 4000K, and 5000K—allowing you to customize the lighting from warm and inviting to bright daylight with a simple switch.

Designed to replace traditional fluorescent and halogen fixtures, it features a built-in driver, slim surface-mount design, linkable capability for continuous runs, and instant-on performance. Ideal for under-cabinet lighting, offices, retail spaces, schools, healthcare facilities, and other interior applications requiring flexible, energy-efficient illumination.

Key Features

- Usable as a stand-alone fixture
- Can be used with 120V TRIAC dimmer
- Daisy chain up to 30 ft for continuous lighting
- Suitable for damp locations

- Excellent heat dissipation
- 50,000-hour rated lifetime
- Available in five lengths: 6 in, 1 ft, 2 ft, 3 ft, and 4 ft

Ideal Applications

- Under-cabinet lighting
- Kitchens and residential spaces
- Offices and workstations
- Retail displays
- Schools and healthcare facilities
- Utility and task lighting areas
